CORPORATE PROFILE

Founded in 2009, The AHKI Company, Inc.'s corporate office is located in Allentown, Pennsylvania. We are a Native American, Woman Owned business with 20 years of construction and facility management, logistical support and materials supply. We also have specialized experience and capability in sanitizing buildings, vehicles, and planes.

We have provided Federal and State governments with products and services since 2009. Our current customers are being served in Ohio, Pennsylvania, West Virginia, Virginia, Maryland, and Washington, DC.

The AHKI Company is grounded with a philosophy that every job requires attention to detail, quality execution and every client is entitled to single-track attention and respect.

SERVICE CAPABILITIES

Sanitizing Services:

The AHKI Company employs a proprietary sanitizing system with CDC approved chemicals to sanitize surfaces for the COVID-19 pandemic. We have the capability to sanitize large facilities in quick turnaround times with our process. Our technology can be employed in almost any facility with very minor disruption to its operation. Most of the time, it is not necessary to remove items from inside the buildings.

Supply:

The AHKI Company is uniquely positioned with a CDC approved Manufacturer in China to provide large quantities of: N95 & K95 respirators, face shields, AAMI Level 2 Isolation Gowns, AAMI Level 4 Surgical Gowns, and Coveralls.

The AHKI Company also supplies chemicals for building sanitization and building construction materials.

Construction Management:

The AHKI Company provides project delivery methods that apply technical management techniques to project planning, management, design and construction in order to achieve your project goals for cost, quality and time requirements.
